## **TIEBREAKER PROCESS TO BE USED FOR DETERMINATION OF FINISH OR SEEDING**

- 1. Record - Example: 3-0 teams over 2-1 teams/2-1 teams over 1-2 teams.**
- 2. Head to Head – Example: if two teams have the same record, go to who won head to head.**
- 3. Fewest runs allowed - Example: of all 3-0 teams first/all 2-1 teams second, etc.**
- 4. Highest run differential - Example: of all 3-0 teams first/all 2-1 teams second, etc.**
- 5. Coin flip - If none of the above breaks the tie, a coin flip will be used.**

**NOTE: When seeding, if a team matches up with a team from the same pool in the first round of bracket play, that team will be switched with the next lowest seed. If switching the teams creates the same problem then the pairing will stand.**
